Welcome to the wonderful world of horses and never ending self improvement! Originally from Illinois, I have

lived in Hampton, Iowa since 1982. I have been a student of Parelli Natural Horsemanship since 2003 and an instructor since 2010. Coming from the world of competi-

tion as an avid barrel racer, I have over 50 years of riding under my belt buckle. From 4-H and county fair showing to rodeo and participation in the National Barrel Horse association, I have competed since I was 12 years old. However, it wasn't until I attended a Parelli clinic in 2003 that I realized how much more there was to horses and riding. I now embrace the importance of how my relationship with each of my horses, and every horse that I put my hands on, comes before everything else. It's way more than riding! I have studied at both the Colorado and Florida Campus sites and have spent time learning with both Linda and Pat Parelli and other horsemen and women that I hold in high regard.

My goal as an instructor is to help others progress toward their dream...to follow their own personal horsemanship journey. Whether it's through sharing knowledge, improving techniques or coaching someone in skills that will improve their own competition pathway, I want to share what I have learned with all who have a strong desire to strengthen their human-horse relationships and seek never ending self improvement in their horsemanship.

At my place, I offer a safe, relaxed and peaceful environment for ultimate learning! Students can enjoy classes in the classroom, indoor arena, outdoor arena, round pen and pasture playground. The playground includes fun obstacles that challenge your savvy and help to develop your horse's confidence and curiosity. Box stalls for horses, a bunkhouse for students and a lounge for all to enjoy make this facility an all inclusive place to visit and study.

Helping horses one human at a time!

Feel free to contact me at anytime for more information about an upcoming event or the possibility of hosting an event at your location.

Savvy! Carol Lowery
